HOLLYBUSH FAMILY CAMP 2019

Calling-Obedience-Legacy

Ephesians 4 v 1-4

Blessed by the God and Father of our Lord Jesus Christ, who hath blessed us with all spiritual blessings in heavenly places in Christ. According as he hath chosen us in Him before the foundation of the world, that we should be holy and without blame before Him in love.

Jim's Jottings

Greetings everyone towards the warmer, lighter, long days, with a bouquet of colour from our Heavenly Father of snow-drops, aconites and daffodils absolutely free! How good is our God. And that is just for starters!! As a fellowship we are faced with a great challenge. To move forward into new days of vision, sharing the load, encouraging a younger generation, to seek and know the Lord and to find opportunities for service in the body of Christ here at Hollybush, endeavouring to ask the Lord in the power of the Holy Spirit. The exhortations of visiting speakers over recent months has been “you will witness greater things than as at the beginning”. There are still pioneers amongst us, who tread new territory, still the settlers who plough the fields to sow and reap, and those who can sow some seeds in prayer, and thank you Lord, no quitters—hallelujah everyone involved. Many problems, difficulties, yes! Jesus promised them—but in Christ we are more than conquerors—Jesus says “rest a while” and then go—do—be—we’re in this journey together.

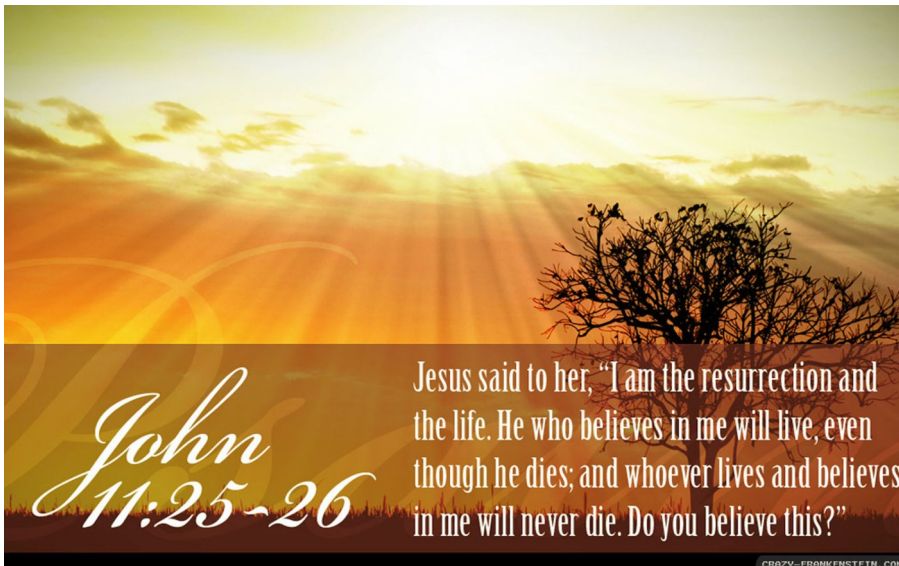

Love Jim and Cynthia

Joanna's Jottings

Wonders in the sky

I have often seen a cloud of birds swaying in the sky and often wondered how they all stay together in movement and why they do it? It's called a murmuration of Starlings. "When a seemingly—delicate flock of Starlings moves like a cloud of living smoke in the sky. It is a beautiful example of how thousands of birds can somehow communicate their movements almost instantaneously. Often the behaviour is sparked by the presence of a predator like a hawk or peregrine falcon and the flocks movement is based on evasive manoeuvre, there is safety in numbers, so the individual starlings do not scatter but rather are able to move as an intelligent cloud, feinting away from a diving raptor, thousands of birds changing direction simultaneously (amazing!). The question that has scientists stumped is how a bird, ten's of hundreds of birds away from those nearest danger, sense the shift and move in unison?

The secret lies in in the same systems that apply to anything on the cusp of a shift, like snow before an avalanche Where the velocity of one bird affects the velocity of the rest...."

How significant this could be to the church spiritually. May the "cloud" of the Holy Spirit direct us as a church (the flock) over the coming days and months as we move together in unity..

Keep on, pressing on!

Yours in His service

Joanna
